

Ryme Intelligence

Ryme Intelligence is a Delaware LLC founded in 2023.

Ryme has created a value delivery system to enable visionary companies to thrive in the National Security sector. We create value in the following areas:

- Technology Maturity
- Federal Contracts
- Strategic Partnerships
- Strategic Government Relationships

We harness wide-ranging National Security expertise, private equity acumen, and deep technical expertise, to transform innovative commercial solutions into instruments for safeguarding our Nation's vital interests.

Ryme's core competencies

Market Research and Analysis: Analyzing emerging trends, technologies, and companies in the AI/ML domain, and aligning these insights with evolving National Security needs.

Scouting and Screening: Identifying, screening, and evaluating companies that offer innovative AI/ML solutions with applications relevant to National Security.

Due Diligence: Performing due diligence on selected companies to assess their technical capabilities, business models, intellectual property, financial viability, and potential for successful competition in the public sector.

Partnership and Investment Facilitation: Facilitating partnerships between companies and National Security stakeholders and negotiating terms, structuring deals, and providing support to ensure alignment with strategic objectives and mutual benefit.

Technology Adaptation: Collaborating with companies to identify opportunities for adapting their technologies and tailoring solutions to effectively address National Security challenges.
